When AbbeyPost Made to Measure launched our first collection, it was all dresses. We we were looking to provide women with versatile, easy wardrobe basics. We knew that everyone could always use a dress that can go to the office, a restaurant, a wedding (http://abbeypost.com/blog/wore-versatile-wedding-guest-dress/) and a cruise

(http://abbeypost.com/blog/packing-for-a-cruise/). A dress that versatile can be hard to find, especially if you're plus size, petite, tall or simply different sizes on the top and bottom.

Our dresses make finding the right fit easy. But we knew our job wasn't done. You've been asking us for pants, skirts and tops. You've been asking for prints (http://abbeypost.com/blog/give-five-minutes-ill-cure-fear-print-dress/)and more colors. And we've been listening. Which is why we are so excited to announce the launch of.our brand new Separates Collection! Pants, Tops, Skirts, and even a few surprises.. All made to fit *you*.

# Pants

Palazzo pants (http://en.wikipedia.org/wiki/Palazzo_trousers) (or just plain wide leg pants!) are stylish and very flattering, especially to triangle shaped women (http://abbeypost.com/blog/abbeypost-guide-buying-clothes-when-you-have-a-triangle-shaped-body/). But if you're anything like me, it's always been a major undertaking trying to find a pair that fit both your waist and hips, and are the right length. Not anymore. Our Sophia palazzo pants will fit you perfectly because they're made to measure. These flowing pants will be comfortable in hot summer weather, but will still be suitable for the cooler months. Every women needs one pair of perfect pants and if palazzo pants flatter your body shape, then you'll be getting a lot of wear from Sophia.

We created the Selena culottes in response to all the requests we've had for them. Women really love wearing culottes (http://en.wikipedia.org/wiki/Culottes#Women.27s_culottes). They hang like a skirt, but they're really pants, so they're perfect for riding a bicycle, gardening, taking a long walk or just relaxing. You get the look of a skirt with no need to worry about chub rub (http://abbeypost.com/blog/chub-rub/). Because they're more flowy than fitted shorts or pants, cutlottes are also more comfortable in warm weather.

# Skirts

Dresses are great, but sometimes you want to mix and match, which means skirts. The Aileen skirt will delight all the women who've wanted to wear a fitted skirt, but couldn't find one that fit properly. Since they're made to measure, Aileen skirts won't be too tight across the hips or gap at the waist. And you can choose the length, from above the knee to maxi. Depending on the length you choose, you can make Aileen a pencil skirt, or a sleek, elegant maxi skirt.

The Jessica circle skirt is fun, flirty and super versatile. Pair it with a button-down shirt (http://abbeypost.com/blog/find-plus-size-white-button-shirt-fits/) or jacket for the office, then wear it with a t-shirt and denim jacket on the weekend. A good circle skirt is an excellent addition to any wardrobe. Jessica's volume makes it flattering, and you can wear it so many ways!

# Tops

Don’t you hate it when you try on a top and it fits fine everywhere except your hips? Or it’s boxy and hides your waist. Or it’s way too long or short because you’re not average height. With our new made to measure tops, you can actually finally find the perfect fit. Best of all: they come in your choice of two LENGTHS! Wow!

You can never have enough basic, tee-style tops. Our scoopneck top is made from jersey, so it can be dressy or casual depending on what you pair with it. Whichever sleeve length you choose, you'll be wearing these versatile wardrobe classics every chance you get.
